REPORT

OF THE

Committee on the Library,

WITH A STATEMENT

OF THE

STATE LIBRARIAN.

ANNAPOLIS
RICHARD P. BAYLY, PRINTER.

1865.

[U. S. DEPARTMENT]

BY THE BOARD OF COMMISSIONERS
OF THE LAND OFFICE

AND RECORDS

REPORT

1880

OF THE LAND OFFICE

WITH A SUMMARY

OF THE LANDS

IN THE STATE OF TEXAS

REPORT.

The committee on the Library beg leave to report that they have received from the Librarian his report, and herewith submit the same to the House, with the request that it be entered upon the Journal.

Your committee have carefully examined the vouchers for the disbursements of the contingent funds, and find them all correct, leaving a balance still on hand of one hundred and seventy-one dollars and sixty-four cents.

The supplementary catalogue herewith furnished, will exhibit the number and character of the books purchased by the Librarian out of the augmentation fund, which we take pleasure in saying has been judiciously and economically expended, a deduction of from twenty to thirty per cent. on all except very small bills has been obtained by the Librarian, and duly credited to the State, thereby saving several hundred dollars, and leaving a balance unapplied of one hundred and eighty-eight dollars and twenty-five cents, which will probably be absorbed, however, by the purchase of some books not yet received.

The last appropriations of three thousand dollars for stationery has been found insufficient and falls far short of the object contemplated.

The reasons for this deficiency are mainly attributable to the great advance in the price of stationery of all kinds, requiring about nine thousand dollars to buy as much as three thousand dollars would some years back; the expenditures for the present session of the Legislature and other purposes have exceeded the appropriations in the sum of \$5,349.35.

We, therefore, recommend suitable Legislation to cover this deficiency, as well as to leave at the disposal of the Librarian a sum sufficient to meet contingencies during the recess of the Legislature, which in our judgment should be not less than 6,500 dollars.

Your committee would further suggest that the mode by which the Library is now warmed is highly detrimental to

the books, &c., a vaporised warmth may be the best for respiration, but is fatal to the interest of the Library, and ought in our opinion to be changed.

In conclusion, we beg leave to bear our testimony in favor of the general care, taste and cleanliness apparent in all parts of the Library.

All of which is respectfully submitted.

WM. H. HOFFMAN,

Chairman Com. on the Library.

February 25th, 1865.

STATEMENT.

STATE LIBRARY,

ANNAPOLIS, *January 20th, 1865.*

To the Committee on the Library :

GENTLEMEN :—Under the instructions of the committee on the Library, I advertised for proposals to do the repairs and make the improvements and additions to the Library, and gave the contract to the lowest bidder. When the work was done, the Hon. Hopewell Hebb, Chairman of the committee on the part of the House of Delegates, examined the work and pronounced it “a most complete job.” The books, I am happy to say, are in the best state of preservation, and the improvement in the appearance of the Library is a full compensation for all expenditures. The appropriation made by the last General Assembly for the repairs and improvements was sufficient for all purposes and leave a small balance.

Contingent Fund.

On coming into the office on the 1st day of May, 1863, the retiring Librarian gave me a statement of the contingent fund, showing a balance to the credit of the Library of \$888.-41, being \$111.59 less than the proportionate part for the eight months remaining of the year.

This statement, I supposed to be correct and made my report to the last General Assembly upon this supposition, but only a few days before the adjournment of the session of last winter, I obtained from the Comptroller of the Treasury a statement showing that the amount of contingent fund unexpended on the day I came into office, (1st day of May, 1863,) was but \$731.41—just \$268.59 less than my proportionate part. This he afterwards explained to me to have grown out of the fact that the contingent fund for a number of years before, had been inadequate to the expenses of the office. On discovering this error, I immediately called the attention of the Chairman of the committee on the Library to it, but it was too late to correct it in my report. The unusual occurrence of a session of the General Assembly and Constitutional Convention in the same year, has been a heavy tax on my contingent fund for freight and express charges. Prices for freight and express have greatly advanced, as well as every thing else.

But by the most rigid economy, I have paid expenses, and have a balance remaining to the credit of the Library of \$171.64; add to this the amount I ought to have had (\$268.-59,) and I would have saved to the State out of the contingent fund \$440.23, and this too after adding a number of indispensable articles to the Library, paid for out of the contingent fund.

Augmentation.

Our additions to the Library during the year have been principally law books. I have spared no pains to complete the broken sets of State reports, and add all the new standard works to the Library. In this I am under many obligations to the Hon. Judges of the Court of Appeals, whom I have invariably consulted. I have saved to the State on all occasions, when in my power, a per centage on purchases for books, as my vouchers will show. I have a balance left to the credit of the Library of (\$188.25) one hundred and eighty-eight dollars and twenty-five cents; this, however, will be required to pay for a number of important books already ordered, but not yet received.

As to the general improvements in the Library, and with what ability and faithfulness the duties of the office have been discharged, I take pleasure in referring you to the Court of Appeals and the State officers who have had almost constant business with the Library.

Stationery and Binding.

The usual appropriation of (\$3000.00) three thousand dollars, was made at the last session for stationery. With the unprecedented rise in all articles of stationery to more than three times what they were worth four years ago (\$9,000.00) nine thousand dollars now, will supply less stationery than (\$3000.00,) three thousand dollars would a few years ago. The present session too will be a longer one probably than any for ten years. The great advance in the price of leather and labor will suggest to you, and the General Assembly, the necessity of increasing the appropriation for binding to at least (\$2000.00) two thousand dollars.

The Supplemental Catalogue required by law to be made has been prepared and herewith submitted.

Pledging to you, and the General Assembly, my undivided attention to the duties of the office, and assuring you that any suggestion you may make will be thankfully received;

I am yours,

Most respectfully,

H. P. JORDAN,

State Librarian.
